

Photo Gallery for August, 2009

Bob Woodard Jr.

“Was with my cousin and was sworn to secrecy by the devil himself on our location. We had a 37 a 44 and a 50, all at night on live squid!” On another email after Ghost fishing, he sent me this message: “my big is 48.4 we got a 55.22 on the boat I was running today.” No pictures sent on that one, but I got some filets for proof!

Donald Crain in Texas, titled “Too Hot To Fish”

“In the AC and in the shade, catching fish. We had too many fish in the tank and some had to come out. It was impossible to catch them with the net, so I rigged up a rod and went at them. After I caught the two biggest ones, the bite shut off. Fish aren't as stupid as we make them out to be.”

Fox and DJ

“It was a great trip!!!!!! Check out these Dorado, Fox's is 24 lbs and mine is 26 lbs. It was so awesome! These were caught 120 miles south of San Diego. We caught lots of yellow tail also, but my camera battery died. So, no pictures of the yellowtails :(“
