## Photos

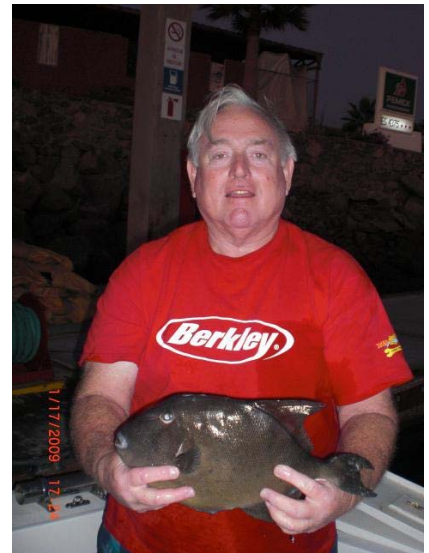

Curt Itogawa on a 13 day trip on board the Shogun, fishing the Hurricane Bank, an area 1,000 miles south of San Diego (a 4 day boat ride one way). Overall, "we had 150 fish in the 130-170# range and another dozen or so in the 190-240# range. My largest fish was a 158# yellowfin which made my goal for the trip of catching a fish that weighed more than I. There were 20 fishermen on board, two over 82 years old! Everyone got to pull on big fish. The food was wonderful and the crew was great."

### Mass Migration of Stingrays

Looking like giant leaves floating in the sea, thousands of Golden Rays are seen here gathering off the coast of Mexico. One of their biannual mass migrations to more agreeable waters, they turned vast areas of blue water to gold off the northern tip of the Yucatan Peninsula. Sandra Critelli, an amateur photographer, stumbled across the phenomenon while looking for whale sharks.
