### Gary Mouritzen's Birthday Trip 4/11/2010:

Did a Birthday trip for me with John Carroll, Fox Ludwig and John's buddy Jayden. We headed South of the Coronado Islands to look for the right kind at the South Kelp. Pretty dry in the morning. Headed to the Rock Pile ... but kept going South as we saw some action. Metered fish, but nothing. Decided to hit the bottom and got some nice Lings and a few others.

Headed back up to the Islands and found the right kind just South of the kelp. Definitely a Run-and-Gun situation. We managed two fish out of the three sets of boilers. Quality size fish in the 16's, one on the green jig and the other on the mint green. First picture, me and my birthday yellow, John and his yellow, John and his new Ling Cod bait!, and then Sushi Time. (all Lings were caught in Mexican waters under Mexican "size" limits!). "Fox" Ludwig did a great job gaffing the Moss Backs and John's friend Jayden certainly made the trip entertaining!

### Steve & Gail Ross (and friends):
